# Annual DINNER

*Dear Friends,*

Thank you for joining us at Annual Dinner of the BINA organization this evening. Your participation is an indication of your high regard for the only Jewish organization providing guidance and assistance to stroke and brain injury survivors in the community.

As dinner chairman, I would like to extend my personal gratitude and appreciation to the founder and director of BINA, Chavie Glustein, for her incredibly selfless dedication to the families of BINA. It is rare to find an individual who literally spends every minute of the day – and often night – immersed in relieving the burden of her fellow man. May she and her family be rewarded with only good health and happiness.

BINA has grown tremendously since its founding in 2003 both in size and scope and has assisted close to 3,000 stroke and brain injury survivors of all ages. Brain injury can be devastating to every member of the family and BINA stands at their side to ensure that every need is met while on the long and difficult road to recovery.

Tonight, we are delighted to honor Dr. Salman Azhar with the Stroke Leadership Award, Dr. David J. Biderman with the Excellence in Brain Injury Rehabilitation Award, and Mr. and Mrs. Chemi Bochner with the Community Inspiration Award. Thank you to their family, friends and colleagues who have joined us this evening to celebrate a well-deserved honor.

We hope you enjoy the dinner and look forward to your continued support of an organization filling a critical need in our community.

*Sincerely,*

*Ben Kurland*  
Dinner Chairman

# Annual DINNER

*Dear Friends,*

It is my pleasure as chairman of the Board of Directors of BINA to welcome you tonight. We all share a common goal of wishing to support a unique organization whose dedicated staff works diligently to ensure that brain injury survivors are given every chance for the best possible recovery.

Under the direction of Chavie Glustein, whom I have come to know and respect as a tireless and fiercely devoted advocate for her families - who she indeed treats as members of her own family - BINA is doing tremendous work for a population that is underserved and little understood by the average person.

Congratulations to tonight's esteemed honorees, Dr. Salman Azhar; recipient of the Stroke Leadership Award; Dr. David J. Biderman; recipient of the Excellence in Brain Injury Rehabilitation Award; and Mr. and Mrs. Chemi Bochner, who are most deserving of the Community Inspiration Award.

Thank you for your support and for joining us this evening.

*Sincerely,*

*Naftali Horowitz*

## **No One Expects Brain Injury to Strike...When it Does, BINA Is There**

BINA has provided guidance and support to thousands of stroke and brain injury survivors of all ages and their families at every stage of the complex rehabilitation process in the aftermath of brain injury.

Brain injuries resulting from car accidents, falls, strokes, brain tumors, aneurysms and other neurological conditions can affect every function... the ripple effects on every member of the family are enormous and life-altering.

BINA's unique approach and comprehensive system of services allow brain injury survivors to access the best possible care while on the long road to recovery.

### **Rehabilitation Referrals**

BINA has thoroughly researched and visited dozens of rehabilitation facilities and therapy centers and works closely with the family to formulate the optimal rehabilitation plan. Our staff is always available to follow up and advocate, ensuring that every possible need is met.

### **Case Management**

Case management works to resolve insurance issues and identify programs, legal options and funding sources. Coordination of the often complicated homecoming process ensures that caregivers are not left to fend for themselves. All educational and residential options are explored so as to afford every individual the best possible quality of life.

### **Crisis Intervention and Caregiver Support**

The program provides counseling, support and education to families who are reeling under the pressures and challenges of their sudden entry into the devastating world of brain injury. Services are offered as needed to close family members during the hospital and rehabilitation stays and continue after homecoming. Support groups are offered for caregivers and survivors.

### **Education**

Educational events for both professionals and the community, presented by leading specialists, offer a deeper understanding of brain injury and its far-ranging effects as well as the importance of safety and prevention. A biannual Expo is an invaluable opportunity for vendors representing a cross-section of the brain injury rehabilitation world to showcase their programs and services to the community.

# Annual DINNER

*Dear Friends,*

Please accept my personal gratitude for your participation in tonight's dinner.

When I founded BINA in 2003, my intention was simply to ensure that no family experiencing the upheaval of brain injury would stand alone as they navigated the complex maze of the rehabilitation system. Never did I imagine the great need that existed amongst brain injury survivors for guidance and support. But the need is there, and I am grateful that with Hashem's help, we have been able to help close to 3,000 families affected by the brain injury of a loved one, with an ever increasing number of new families turning to us on a daily basis.

It is critical that we continue to grow as an organization by increasing the scope of our services, raising awareness in the community about the reality of brain injury and the critical importance of prevention efforts, increasing our visibility so that every brain injury survivor who currently struggles in isolation becomes aware of our work, and expanding our reach nationally and internationally.

Our mission is clear but we can't do it alone.

BINA is there every day for brain injury survivors; please be there for BINA.

Thank you for your generous support and enjoy the evening.

To Whom It May Concern:

I am pleased to write this letter of reference on behalf of BINA Stroke and Brain Injury Assistance. As a member of BINA's Medical Advisory Board, and having known their Director, Chavie Glustein, for many years, I am very familiar with their work on behalf of stroke and brain injury survivors.

During the time that I have had the privilege of working with Ms. Glustein and her colleagues at BINA, I have observed the genuine compassion and dedication that they offer to individuals with brain injury and their loved ones. During times of illness, particularly following neurological injury, families often do not have the knowledge of available treatment options or the resources that can help guide their decisions.

My involvement with BINA has confirmed that their organization provides this much needed assistance to families afflicted by neurological injury who are unfamiliar with the available rehabilitation options in the metropolitan region. BINA has touched the lives of close to 3,000 families, making a noticeable impact on the quality of care people with neurological disabilities receive in New York City. My hope is that BINA continues its work and expands to help many more families.

Sincerely,

To Whom It May Concern:

It is with great pleasure and enthusiasm that I write this letter on behalf of BINA Stroke and Brain Injury Assistance, with whom I have known since they began helping survivors of these medical conditions and their families. I have seen over my career the physical and emotional toll that a stroke and brain injury can have on the individual affected as well as the family involved. BINA helps families through the difficult process from the acute event at the hospital, finding appropriate short and long term care, resources and offering personalized support. Their hard work based upon personal experience and in-depth research offers critical assistance to the families to help navigate the difficult and unknown world that they have been presented with. Their assistance greatly impacts the individual and family for many years; I have witnessed their successes first hand.

I am extremely impressed with the services offered by Chavie Glustein and her staff. The staff at BINA has a deep understanding of the treatment options available to those patients and families trying to recover from often devastating strokes and brain injuries. And even more importantly, they do so with passion, compassion and understanding. I do not believe that there is any better or even similar type of service provided to the public.

I have the greatest of respect and admiration for the work of BINA and therefore strongly support activities that would lead to further broadening the capacity of BINA and its staff to provide families and survivors with even greater attention, service and support. I would be happy to speak with anyone directly who may have any questions regarding my experiences with the organization.

Sincerely,

## *Salman Azhar, MD* **STROKE LEADERSHIP AWARD**

After completing medical school at Virginia Commonwealth University in 1993, Dr. Salman Azhar went on to a residency at Mount Sinai Medical Center in New York, followed by a fellowship in Vascular Neurology at the National Institute of Neurological Disorders and Stroke. Dr. Azhar was the long-serving Chairman of Neurology and Rehabilitation Services, and a Senior Vice President at NYU-Lutheran in Brooklyn, New York, one of the first institutions in New York City to receive Joint Commission and New York Department of Health designation as a Primary Stroke Center.

In 2017, Dr. Azhar was appointed Director of Stroke at Lenox Hill Hospital in Manhattan and Regional Director of Stroke, Western region, in the Department of Neurology at Northwell Health. He is a Professor at the Donald and Barbara Zucker School of Medicine at Hofstra/Northwell, a member of the New York State Department of Health Stroke Physician Advisory Group, and a member of the BINA Medical Advisory Board.

Dr. Azhar is committed to the prevention of stroke by reducing risk factors in the general population. Quoted in an article "Stroke Risk Factors are Rising," on Health.com, Dr. Azhar stated, "The challenge now is to prevent strokes, and if they have had a stroke, trying to prevent a second stroke...The responsibility to reduce risk factors lies with patients, but also with the community," he continued. "It's up to communities to provide access to better food and places to exercise. We have a responsibility as a community and a health system."

Dr. Azhar is also involved in concussion safety and has worked to reduce the incidence of concussion among football players through the implementation of safer training methods.

*David Biderman, Ph.D.*

## **EXCELLENCE IN BRAIN INJURY REHABILITATION AWARD**

Dr. David Biderman grew up in New York City and earned his Doctoral Degree in Health Psychology from Ferkauf Graduate School of Psychology/Albert Einstein College of Medicine. Dr. Biderman joined Rusk Rehabilitation, NYU Langone Medical Center in 1996 as a research assistant and started working at the Brain Injury Day Treatment Program (BIDTP) in 1999. In 2010, Dr. Biderman became the Supervisor of Psychology for the program, following the retirement of its longstanding founder and Director, Dr. Yehuda Ben-Yishay.

In addition to Dr. Biderman's role as supervisor of the day program, he is currently engaged in research regarding improving the quality of life for individuals with a brain injury, cognitive retraining software to improve attention functions and the use of tablet/Ipad technology as a cognitive aide. Dr. Biderman has also presented and published on the role of significant others in the rehabilitation of individuals with a brain injury. He enjoys supervising Rehabilitation Medicine Fellows, Psychology Interns and students at other levels who are interested in learning more about intensive neuropsychological rehabilitation.

A Clinical Assistant Professor in the Department of Rehabilitation Medicine at NYU Langone Health, Dr. Biderman is also on the Medical Advisory Board for the BINA Organization.

Dr. Biderman and his wife Shulamith live in Cedarhurst with their children, Moshe, Yitzy and Miri. Their son and daughter-in-law, Sruly & Sima, live in Philadelphia with their granddaughter, Yehudis.

## *Mr. and Mrs. Chemi Bochner* **COMMUNITY INSPIRATION AWARD**

Chemi and Nechie Bochner are residents of the Marine Park section of Brooklyn and the proud parents of Asher, 11, a talmid at Yeshiva Tiferes Yisroel; Esti, 8, who attends Bais Yaakov D'Rav Meir; and Peri, 3. Chemi is a cherished mispallel at Khal Bnei Torah and enjoys a close relationship with the Morah D'Asrah, Rabbi Benzion Schiffenbauer, שליט"א.

Chemi grew up in Brooklyn where he attended Yeshiva Torah Vodaath and later continued learning in the Bais Medrash of Yeshiva Ateres Shmuel of Waterbury. His father, R'Naftali Bochner כ"ט, passed away ten years ago and is fondly remembered as a tremendous ba'al chesed and a loving father and friend.

Tonight's award is being accepted in memory of Chemi's mother, Mrs. Malka Bochner ה"א who passed away this year. A beloved mother and grandmother, she was the epitome of chesed and kindness who touched everyone who had the privilege of being a family member or friend. Words cannot express her essence and the extent of the loss felt by all who knew her.

Originally from Staten Island, Nechie is a daughter of Mr. and Mrs. Chaim Joffe. She is a graduate of Prospect Park Bnos Leah High School and went on to attend Mesilos Seminary in Israel.

With their personal example of Torah and chesed, Chemi and Nechie continue to inspire their large circle of family and friends who regard them with the highest esteem and affection and join BINA in honoring them this evening.

To my Dear Husband

**DAVID,**

Words simply cannot describe how proud I am of you and all that you have accomplished.

You have a wonderful gift, in that you're able to change the lives of all those you encounter.

Whether it's your patients, colleagues, friends, or family all are greeted with a smile, a helping hand and treated with the utmost respect.

Your warm, caring, and understanding nature has helped your patients as you guide them on the road to recovery. You've helped many individuals who have been injured, along with their families, through an incredibly difficult and confusing time in their lives, with skill and kindness.

BINA has made an excellent choice in honoring you. I know how much you value them and how much they appreciate you. Your collaboration benefits the field of rehabilitation and contributes to the incredible work you do each day at Rusk.

Mazel tov on this well-deserved honor. May Hashem continue giving you the strength to improve the lives of all those you touch.

With All My Love,

*Shulamith*

## TO OUR DEAR FATHER,

When you are helping patients put their lives back together,  
**We admire you.**

When you are helping friends with whatever they might ask of you,  
**We look up to you.**

When you are helping us with anything and everything we may need,  
**We love you.**

We are in awe of all you have achieved in helping those who suffer from traumatic brain injuries. You've taught your patients to never give up when going through tough times. Just as you've taught us.

May Hashem continue to bestow upon you the ability to enrich the lives of those around you, and to make a lasting impression on the countless lives you've enhanced.

We are overjoyed to share in this accomplishment and we couldn't be prouder

With much love and admiration
