IRB APPROVAL EXPIRES

AUG 27, 2025

KESSLER FOUNDATION

Lead Investigators:

Nancy Chiaravalloti, PhD

Brian Sandroff, PhD

What's Involved?

Participate in a study of the combined effects of cognitive training with a personalized exercise program.

The goal is to improve memory skills while improving health through completion of an exercise program.

Who is Eligible?

- Individuals 18-65 years old
- Who have had a traumatic brain injury at least one year ago
- Have problems with memory
- Can undergo an MRI
- Can read and speak English fluently
- Is right-handed

Compensation

Participants receive up to \$350 for completing the study
